ALL ABOARD, Toddler Girls and Boys!!! This hands-on camp explores gross and fine motor skills to prepare toddlers for their first and second years of school. They'll hop on a train each day on an adventure journey, learning new skills with each stop. We'll chug full steam ahead to the "Think Tank", "Footloose Caboose", "Stop, Go. Fast, Slow", "Spin the Wheels", and "Choo Choo, Red Green Blue" stations. If your child owns train themed clothing, please feel free to have them wear it during this fun camp!

Coordination Station focuses on improving balance, eye-hand coordination, grip and grasp, ball handling, following classroom directions, and so much more! All supplies and materials will be provided, including a mid-morning healthy snack. Please have your child bring a lunch each day so that they can practice eating in a classroom setting with friends. Moreover, please pack a drink each day, a spare change of clothing, and diapers/pull ups.

Please make sure you note the differing weeks for Sessions 1 and 2. The sessions have different, complimentary curriculums. Sessions are scheduled back to back to ensure the continuity of the curriculum and to help prepare toddlers for the "rhythm" of the school year. Students can enroll in either or both sessions.

Let's have an adventure!!
